

COE STUDENTS GAIN VALUABLE INDUSTRY EXPERIENCE THROUGH 2017 INTERNSHIPS

As part of their 2017 Center of Excellence Scholarship Program experience, students participate in internships at MPC member companies to give them valuable exposure to working in the poultry industry. A total of 32 industry internships were awarded and serve as integral components of the COE program, allowing students to take the knowledge they learned in the classroom and apply it to real-world experiences. *Thank you to all of the companies that provided internships!*

Name	University	Internship Host
